About GreenDrop

GreenDrop is transforming the way consumers support their favorite charities by donating lightly worn clothing, used electronics and household goods at conveniently-located, free-standing locations throughout the Mid-Atlantic region.

By recycling former gasoline stations, GreenDrop offers consumers clean, brightly lit, and safe drive-up locations where they are greeted at their car by uniformed GreenDrop attendants, who unload donations, provide tax-deductible receipts and allow consumers to direct their giving to the American Red Cross, the Saint Vincent de Paul Society of Philadelphia, the Military Order of the Purple Heart, or the National Federation of the Blind. In 2017, these charities received \$2.5 million through donations to GreenDrop facilities, which are sorted and then resold at area thrift stores, sent overseas or recycled for their fibers and parts.
